Summary

Motivated Computer Science graduate with a solid foundation in programming, data analysis, and problem-solving. Proficient in Python, SQL, and Power BI, with hands-on experience gained through academic projects and training. Eager to learn, grow, and contribute effectively in a professional environment.

Experience

Cooperative training at Municipality of Al Aflaj

from June 2025 to August 2025.
During the training I acquired skills like:
- Improved my ability in taking responsibility of a given works and tasks.
- Improved my ability in self-learning.
- Improved my ability in working under the pressure and short of time.

Education

Prince Sattam bin Abdulaziz University

Bachelor of Computer Science

- Joining date from 2021 to 2025.

Skills

Technical Skills

-Data Analysis
-Power Bi
-Python
-Machine learning
-Deep learning
-SQL
-java
-(HTML, CSS, JavaScript)
-MS Office Application

Soft Skills

-Communication skills.
-Teamwork.
-Faster learner.
-Ability to work under pressure.
-The ability to research and solve problems.
-Analytical Thinking

Projects

Saudi Real Estate Transactions Analysis | Power BI & DAX

Built a Power BI report analyzing 196K+ real estate transactions worth SAR 200B+ using official Saudi open data.

Saudi Oil Exports Time Series Analysis | Python

Built forecasting models using SARIMA, Machine Learning, and Deep Learning on KAPSARC oil export data.

E-commerce Dashboard | Power BI & DAX

Built an interactive dashboard to track KPIs, customer segments, and sales performance using DAX.

Graduation Project (TTS -Task Tracking System)

TTS is a user-friendly program that helps companies manage projects by assigning tasks, tracking performance, and boosting productivity through precise tools and detailed reports.

Software Engineering Project (PlayStation App System Analysis)

Performed requirements analysis and system design using UML diagrams.

Courses

- Data Analyst Virtual Work Experience **| MISK FOUNDATION & STC** — 7 Hours, September 2026
- Career Preparation Program | **MISK FOUNDATION** — 50 Hours, May 2026
- Time Series Analysis Program using Python | **TUWAIQ ACADEMY** — 40 Hours, April 2026
- Data Science & Artificial Intelligence Track | **SATR** — 27 Hours, February 2026
- Data Engineering & Analysis | **TUWAIQ ACADEMY**, February 2026
- Data Analysis Track | **SATR** — 27 Hours, December 2025
- Introduction to Business Intelligence| **SATR**, September 2025
- Technical skills using GenAI| **TUWAIQ ACADEMY**, September 2025
- Fundamentals of Scientific Research for Graduation Project | **PSAU**, January 2025
- Entrepreneurship & Vision 2030| **PSAU**, November 2022
- Introduction to the IOT| **DOROOB**, July 2022
